We are Hiring

Researcher in econometrics and data science

In HOLOSS, you will be involved in a variety of activities ranging from exploration to technology research, including technology transfer. You can develop your professional career through projects at the forefront with a high level of commitment and responsibility in each project. We offer you the opportunity to participate in national and international congresses, conferences, and European (EU) and Portuguese (PT) projects with prestigious EU universities, research centres and industries.

MAJOR RESPONSIBILITIES

- Collect, process, and analyse large volumes of economic structured and unstructured data from various sources such as government reports, financial institutions, and international organisations. This data may include costs related to the entire lifecycle of a product, including initial investment, operation, maintenance, and disposal.
- Develop and apply LCC, CBA, and other relevant models to evaluate the total cost of ownership of a project over its entire lifecycle.
- Incorporate big data analytics to enhance the accuracy and depth of LCC and CBA models, and other relevant models.
- Perform policy analyses and policy recommendations for different fields and projects.
- Lead bespoke research for our projects.
- Perform data analysis and visualisations using Excel or other tools (e.g., Tableau, R).
- Prepare technical reports (deliverables), peer-reviewed articles, white papers, briefings, and other materials on all aspects of sustainability.
- Make presentations at national and international workshops and conferences.
- Mapping of EU & PT funding opportunities.
- Contribute to the design of project proposals and write new R&D project proposals (e.g., Horizon Europe).

REQUIREMENTS

- Bachelor's in econometrics and data science; Bachelor's in economics and statistical analysis with a Master's in data science; Bachelor's in applied mathematics and data science with a Master's in economics.
- Flawless knowledge of English (spoken and written).
- Proactive, self-motivated, and result-orientated with a problem-solving mindset and strong team-working capability but is also able to work autonomously and creatively to solve problems independently.
- Strong drive to learn new topics and skills and develop innovative insights.
- Availability and willingness to travel abroad for meetings and events.

DESIRABLE:

- Publications in the fields of econometrics, data science, social sciences, policy analysis, sustainability analysis, and geopolitics.
- Awareness of the health, environmental, economic, and social aspects of value chains.
- Experience with EU projects.

OUR OFFER

- A position entirely on-site – Monção/Portugal (ineligible for remote or hybrid work).
- A full-time position with the desire to start as soon as possible.
- An attractive salary package, complemented with coaching, further training, and much more, rounds off our offer.
- The opportunity to participate in international conferences and meetings
- A young team where every voice counts and trust, respect, and kindness are part of everything we do.

CONTACT

Please submit your application electronically to holoss@holoss.com. The application must include:
- Cover letter
- Curriculum vitae
- Copy of relevant diplomas with grades

The application and supporting documentation must be in Portuguese or English language. Please send all materials in **one (1)**.pdf file through email with the subject **"REDS – [your name]"** no later than **18.00 (Lisbon Time)** on **March 7, 2025**. Failure to comply with the requirements and instructions herein provided will disqualify the applicant. Only shortlisted candidates will be contacted for an interview.

HOLOSS is an equal opportunity employer committed to achieving diversity within the workforce and creating an inclusive working environment. Thus, we welcome applications from all qualified candidates, irrespective of gender, sexual orientation, ethnicity, beliefs, age, disability, or other characteristics.
