

We are Hiring

Researcher in the field of social science on the drivers of climate change and sustainable development

In HOLOSS, you will be involved in a variety of activities ranging from exploration, technology research and intellectual property management. You can develop your professional career in projects at the forefront with a high level of commitment and responsibility in each project. We offer you the opportunity to participate in national and international congresses, conferences and European (EU) and Portuguese (PT) projects with prestigious EU universities, research centres and industries

MAJOR RESPONSIBILITIES

- Collect, process, and analyse large volumes of structured and unstructured data to develop high-resolution datasets for Social Life Cycle Assessment (s-LCA) and Life Cycle Cost (LCC).
- Perform direct consultation with relevant stakeholders (policymakers, civil society organisations, industries, academia, among others) through interviews, focus groups and inquiries.
- Develop strategies to engage different stakeholders in different projects.
- Perform policy analyses and policy recommendations for different fields and projects.
- Identify the project's requirements while building an effective methodology to produce high-quality outcomes (e.g., a set of well-structured research questions that the project must address).
- Organise events such as webinars, workshops, etc.
- Lead bespoke research for our projects.
- Perform data analysis and visualisations using Excel or other tools (e.g., Tableau, R).
- Prepare technical reports (deliverables), peer-reviewed articles, white papers, briefings, and other materials on all aspects of sustainability.
- Make presentations at national and international workshops and conferences.
- Mapping of EU & PT funding opportunities.
- Contribute to the design of project proposals and write new R&D project proposals (e.g., Horizon Europe).

REQUIREMENTS

- Bachelor's Degree in International Relations, Political Science and Master's Degree in Economics, Environmental Economics, Sustainable Development, Development Studies (or vice versa).
- You must have 2-3 years of experience or comparable work/educational experience.
- Flawless knowledge of English (spoken and written). Equivalent to the Cambridge English C1 proficiency.
- Pro-active, self-motivated and result-oriented with a problem-solving mind-set and strong team-working capability but is also able to work in autonomy and creatively to solve problems independently.
- Ability to follow and complete complex instructions in a timely and efficient manner.
- Strong drive to learn new topics and skills and develop innovative insights.
- Availability and willingness to travel abroad and stay overnight for meetings and events.

DESIRABLE:

- Excellent knowledge of social science research methods and testing procedures.
- Awareness of the health, environmental, economic, and social aspects of value chains.
- Experience with EU projects related to social issues is an advantage.

OUR OFFER

- A position entirely on-site – Monção/Portugal (ineligible for remote or hybrid work).

- A full-time position with the desire to start in January 2024.
- An attractive salary package, complemented with coaching, further training, and much more, rounds off our offer.
- The opportunity to participate in international conferences and meetings.
- A young team where every voice counts and trust, respect, and kindness are part of everything we do.

CONTACT

Please submit your application electronically to holoss@holoss.com. The application must include:

- Cover letter
- Curriculum vitae
- Copy of relevant diplomas with grades and English certification.

The application and supporting documentation must be in Portuguese or English language. Please send all materials in **one (1).pdf** file through email with the subject "**SCCSD – [your name]**" no later than **18.00 (Lisbon Time)** on **October 10, 2023**.
